

Here's how it works

Entrust is a private trust set up for the benefit of every one of the 374,000 households and businesses connected to the Vector electricity network within our district.

Who gets a dividend?

A dividend is paid to those in the Entrust District whose name appears on the power bill as at midnight Wednesday 12 August 2026.

Still got questions?

We're happy to help. For more information about Entrust and the dividend payment, visit our website **entrustnz.co.nz**

WOO-HOO

Enjoy your \$377 Entrust dividend, Auckland

We are your Trustees

As majority shareholders of Vector, we work to benefit the people and businesses of Auckland. We've been putting money in your hands and boosting the local economy since 1994. Since then, the number of people receiving the dividend and the size of the payment have grown.

Your elected Trustees are (left to right): Alastair Bell, Rachel Adams Langton, Denise Lee (Chair), Angus Ogilvie and Paul Hutchison.

We'd love to meet you

You elect the Entrust Trustees, which means we work for you. We'd love to meet you at our annual meeting. Come for an update on the past year and to have your questions answered.

Annual Meeting

**Thursday 22 October 2026
at 7pm**

**Great Northern Room
Ellerslie Event Centre
Auckland Racing Club
100 Ascot Avenue
Remuera**

How we work for you

Putting money in your hands since 1994

We've been paying dividends since 1994. The amount may change, depending on Vector's financial performance, but every dividend is money in the hands of our power account holders. We are proud to have paid out more than \$2.5 billion since 1994.

Boosting Auckland's economy

In a tough year like the last one has been, we are pleased to inject \$141 million into the economy and into the pockets of thousands of families and businesses.

Driving accountability

We are committed to doing what's best for Aucklanders. Holding a 75.1% majority share in Vector, we do this by ensuring that Vector consistently considers the needs of our district, today and for the future.

Investing in new technology and underground lines

As part of our shareholder agreement, Vector is required to invest \$12.8 million every year on undergrounding or new technology / network resilience projects. Recent large-scale undergrounding projects have included Mt Albert and St Heliers, and a major project currently underway in Beachlands.

Championing energy consumers' interests

Entrust is a strong and stable owner for Vector and we have an important role in key decisions made by the company. We strongly support Vector leading the energy transition to help achieve Auckland's growth and decarbonisation goals.

This year we paid
\$141m
to 374,000
households
and businesses
in Auckland

Even easier by email

You can receive dividend information from us by email in the future. Just make sure your electricity retailer has your correct email address in their records.
